Tips of the Trade – Parties:

- * Timing is everything.
- * Make sure that everything is setup at least a couple hours before your party is set to start. Problems occur no matter how prepared you are.
- * This cushion of time will allow for any unplanned problems.
- * This will definitely relieve any stresses when guests start to arrive while you are still setting up.

* Decorations for your party are key to creating the ambience.

* Take a look at the location or venue of your party to ensure that you have adequate decorations so that room does not look naked.

* Consider the lighting; use of candles or spotlights, as it will help set the mood.
